OFFICE
OF
TOWN AND
DISTRICT

Local News.

Mrs R. C. Ames is visiting in Dallas.

Dr. Scott is spending a few days with his son in Wetaskiwin.

O. Bodily, of Vancouver, was a visitor in town the other day.

T. J. Durkin has moved into his new residence in the west end of town.

S. Stinson, of Edmonton, is visiting with Jas. A. Dick in the Brooks district.

H. A. Fuller, of Marshalltown, Iowa, is paying his annual visit to his daughter, Mrs. C. A. Parks.

E. T. Cooper, blacksmith, is having his workshop overhauled and enlarged. Nothing like enterprise.

Dr. Graham attended a meeting of the Medical Association in Edmonton last week.

E. M. Humphrey, of Red Pict, Montana, is visiting with his daughter, Mrs. R. M. Whitecotton.

Bruce Patterson is having some important ditching work carried out on his estate west of town. S. Barker is engineer and master of ceremonies.

T. A. P. Frost has moved into the Cook residence, near the school, recently vacated by W. J. Lorimer.

Geo. Beal has purchased the H. E. Pondleton residence in the south end of town. It is understood that Mr. Pondleton will erect a residence in the spring.

Miss Stella Smith left last week for Santa Helena, California, where she will take up her studies as nurse.

Chas. Sparks, of St. Catherine, Ont., has been spending a few days with his sister, Mrs. George L. Laycock, and other relatives in the district.

The local coal merchants are busy filling orders, which go to show that we are approaching a month or two of cold weather.

J. W. DeWilde has had his pool room renovated and decorated, which gives it a clean and airy appearance.

L. B. Matuch is up from Washington on a visit to relatives. He reports that there has been a wonderful fruit crop, but that it is rating on the ground, railway conditions and the high freight rates preventing trade. Fruit growers are having a hard time.

Miss Whitney, who has been with Kennedy & Russell for some considerable time, left for her home in Oregon on Monday. Her position in the store has been taken by Mrs. Lyle Russell.

Miss Gay, for many years a missionary of the Presbyterian church in China, will give a missionary address in the Union church on Tuesday afternoon, Sept. 19th, at 3 p.m. Miss Gay comes under the auspices of the W.M.S. Every woman in town is asked to take this opportunity of securing first hand information regarding missionary activities in China.

Work on the sidewalks is promised as soon as the lumber is on the ground. There is no time to delay if good work is to be done this fall.

The usual number of duck hunters are in evidence, but so far the returns have been poor. Truly this is becoming a dry parched land for man and duck—more especially the duck.

Business is commencing to revive, fall trading being in evidence. Saturday the stores in town were crowded to almost midnight. The last Saturday we have had for several months' being the report.

After an adjournment for five summer months Britannia Lodge A.F. & A.M. resumed their monthly meetings on Thursday. There was a large attendance of the brethren, who were hospitably entertained by Brothers A. Reid and S. Bird.

A number of members of the Battle River Lodge, Eastern Star, visited the Wetaskiwin lodge on Friday evening. They were hospitably entertained and had an enjoyable visit.

Threshing has been going on in this district for some ten days, and the reports to hand very considerably. On new land or summer fallow some very fair returns are being shown, but on old land the returns are light. Taken altogether our crop is below the average.

Mr. Morrow will offer household furniture for sale, Sept. 10th, at the Town Hall.

The annual district meeting of the Methodist church was held in the Union Church on Wednesday, Rev. Wm. Irwin, of Wetaskiwin, the chairman of the district, occupying the chair. In addition to the ministers and laymen from the various points on the district, Rev. T. C. Buchanan, D.D. missionary superintendent, was present.

The regular monthly meeting of the Eastern Star will be held in the lodge rooms on Thursday evening, September 21st, when the W.G. Matron, Mrs. Darlow, will pay her official visit. A full attendance is requested. Visitors are especially invited.

At a recent meeting of the Ponoka Agricultural Society directors it was decided to pay the prize money in full. The fair was most successful from a financial point, and it is hoped that the balance against the society will be wiped out, or nearly so. This is most satisfactory, and reflects credit on the management and all concerned.

With united effort and the loyal support of agriculturists, Ponoka's Agricultural Society should go on from success to success. There was a gratifying increase in the local exhibits at the recent fair, which held their own against outside competition, and no doubt this will be improved by another year. In justice to himself and the district, every farmer who has good stock should be represented.

Report Utter Rof The Greek Forces At Hands of Turks

Athens.—Nikolaos Katsouris has accepted the premiership which M. Protopapadakis resigned on Thursday.

Smyrna.—The political and military authorities of Smyrna today were evacuating the town. Smyrnians are under way from Varna, Sharmas and Chios.

Greek forces there were holding the line east of Sallid, 50 miles east of Smyrna. It was stated in advance from the front, but there seemed little hope of stemming the tide of the general retreat of the Greek army under the Turkish nationalist thrust.

Deserters are arriving there by the thousands. The Greek northern army, other messages state, is retreating from Bursa toward Pindus and Mt. Ossa, on the Sea of Marmora.

Angora.—The situation here is serious. The Turkish nationalist forces have fallen into the hands of the

PLANNING RECONSTRUCTION WORK IN FORMER BATTLE ZONES IN FRANCE

Paris.—Senator de Laborde, explaining in Le Journal his arrangement with Hugo Stinnes German financier for reconstruction work in the former battle zones, said it was thought best to make as complete a possible of German labor. The effect of having too many German workers in the devastated regions, however, was feared and by arrangement adopted, the greater part of that labor will be utilized in Germany.

As regards the employment of 6 million men, to be paid to the German manufacturers, he considered it better to permit the amount of the commission fee. It is said that the German profit of 20 to 30 per cent. in which respect he was in agreement with the

Ford Will Get Coal

Stated That Agreement Entered Into Will Permit of Plants Running

Cincinnati.—According to a telegram given out by Frank P. Heasley, President of the American Export and Inland Coal Company, with offices in this city, an agreement has been entered into with representatives of Henry Ford, of Detroit, by which a sufficient amount of coal will be forwarded to the plants of the Ford company to obviate the shortage which was scheduled for September 16.

Planning Race for Small Airplanes

Paris.—The newspaper Petit Parisien announces that it is organizing a race for small airplanes, the weight of which must not exceed 1000 grams (40 pounds) with ten horse power motors, to be flown over a course of 200 miles next May. The paper offers three prizes: one of \$25,000, one of \$10,000 and one of \$5,000.

Practice Is Condemned Of Handing Out Doles In Unemployment Cases

Ottawa.—Condemning the practice of handing out unemployment doles, declaring that the peak of unemployment is now passed, and that no additional means for dealing with it are necessary, and enjoining the principle "that the problem of unemployment is primarily one of industry, and that every effort should be made in industry to prevent the occurrence of unemployment," the national conference on unemployment came to a close here.

Hon. James Murdoch, Minister of Labor, handed out two resolutions which had been passed unanimously by the conference. He was asked specifically with regard to the attitude of the conference on doles.

"The conference," he said, expressed the opinion that the practice of handing out doles is wrong in its principle and often harmful in its effect, and should not be resorted to until all other measures have failed.

The first resolution handed to the press by Mr. Murdoch which, he said, had received the unanimous endorsement of the conference, was as follows:

"In connection with that statement which has been given by this conference to the subject of unemployment and the measures which have been deemed necessary by the public authorities in Canada to provide for the relief of unemployed persons, the conference hereby places on record its full and explicit endorsement of the following principle: That the problem of unemployment is primarily one of industry, and that every effort should be made in industry to prevent the occurrence of unemployment."

"It is recognized that the causes of unemployment in some of the principal industries and in part due to causes which are international. This conference, however, ever upon those engaged in it

NEED AGGRESSIVE IMMIGRATION POLICY

CAPITAL FOR DEVELOPMENT OF WEST IS FORTHCOMING

Ottawa.—Immigration and development of our natural resources are essential to the progress of Canada and to the solution of many national problems, declared Hon. Charles Stewart, Minister of the Interior, in discussing his recent western tour. "That a national immigration and development policy has been developed and will shortly be announced, is now definitely known."

"Capital is required for development, especially in Western Canada, where the great natural resources furnish a great field for intelligent investment," Mr. Stewart added. "The Government is prepared to encourage investment for development; but not for exploitation or stock speculating."

Every year Canada sends out for the country \$40,000,000 for petroleum and petroleum products. Alberta may, in the near future, furnish a home product that may check in some degree this drain on our capital. The steady development of the United States oil field north has brought producing wells to the international boundary, and it is confidently anticipated that discoveries will be made this side of the line that will bring activity and prosperity to our western territory.

The true test of other natural resources in the west.

"The Government is prepared to protect and encourage legitimate investment in development and to discourage stock jobbing brokers. Lease conditions will be carried out in the west. The Government has no need of imposing retroactive legislation imposing unexpected conditions or exacting unreasonable demands on present conditions and in the prosperity that follows in its wake."

Mr. Stewart stated that there was a fewish activity in the Southern Alberta country by powerful and legitimate companies. The investigation caused in a great measure by the success immediately across the line. Across the international boundary 4000 outfalls are at work and on the Canadian side drilling is almost in full blast. Dr. Dowling, in charge of the branch of the Mining Department, is on the ground watching developments.

Expect Italian Immigrants

Huge Colonization Scheme Is Now Under Way

Montreal.—A huge colonization scheme to settle Italian emigrants in Canada, projected by the Government of Italy, which has sent Joseph De Michelis, General Commissioner of Colonization, to make a preliminary survey of industrial and agricultural conditions in the Dominion, with a view to ascertaining the quota and the type of immigrant most needed here.

Mr. De Michelis passed through Montreal on route to Ottawa, where he will meet members of the Cabinet and confer with the heads of all departments of labor and immigration.

Following that meeting he will cover each of the provinces from Ontario westward, accompanied by Jules Bologniet, Italian Consul in Canada. When Mr. De Michelis completes his survey in Canada he will make a similar one of the United States.

In explaining his mission, Mr. De Michelis declared it had three chief reasons: First, to ascertain the class of immigration most needed by the Dominion, which Italy could supply; second, to secure Canadian capital, which would be joined to Italian capital with the view of establishing Italian farmers on Canadian land; and, thirdly, to collect first-hand data on actual conditions in the Dominion, and determine whether it is in the best interest of the Italian Government to embark upon the contemplated colonization scheme.

British Coal for Boston

Boston.—British coal is pouring into Boston in such quantities that 14 laden vessels are riding in the lower harbor awaiting opportunity to discharge their cargoes, while others are in the upper harbor. Their tonnage total 26,000 tons. Nearly one-quarter of a million tons have arrived in this port since the first shipment of the coal.

Thirty-six steamers are en route from British ports for Boston, carrying up to 200,000 tons.

On the question of unemployment relief, Mr. Murdoch said that there would be no unemployment necessitating government assistance. If there should be such unemployment, the view of the conference was that no additional means, other than those which had been taken in the past, would be necessary to deal with it.

It was stated that there had been unanimity on all the points mentioned. The unemployment problem was thoroughly canvassed and the difficulties of the various provinces discussed.

Sentenced to Death For Counter-Revolution

Russian Newspaper Announces Conviction of Fifty-Five Persons

Moscow.—Fifty-five persons have been sentenced to death in South Russia upon conviction of counter-revolutionary activities. The newspaper Pravda announces. The Ukrainian Court at Kiev sentenced 45 members of Petura's Cossack bands which, in connection with General Tumutsk's forces, arose against the Ukrainian Soviet. All the convicted persons are dead.

At St. Petersburg, Nicolai Borenko, a young officer, under an assumed name, proclaimed himself the 'Czar of Russia' several months ago, and was sentenced to death, together with six followers, while Mrs. Borenko and seven others were sentenced to prison.

German Payroll Shows Increase

Civil Service Employees Get Thirty Per Cent. Raise

Berlin.—Germany's civil service payroll for September will show an increase of one hundred million marks over August in consequence of negotiations between officials and employees held at the Ministry of Finance. A 20 per cent. raise in wages was decided upon, due to the increased cost of living.

The increase on the cost of living throughout Germany rose 40.5 per cent. in August as compared with 22 per cent. in July.

Soliciting Funds For Irish Republican Cause

Widow of Mayor McGowan in States to Raise Money

New York.—Mrs. Muriel McGowan, widow of former Mayor Torrance McGowan of Cork, who died of starvation in British Prison, London, in 1920, arrived on the President Arthur. She was accompanied by Linda Mary Keane, Irish republican, and said the purpose of her visit was to raise funds for the dependents and expenses of the Irish republican cause and for hospitals of the wounded Irish republican army.

Wood Alcohol Poisoning

New York.—The deaths of three men and two women and a case of blindness have occurred in the Red Hood section of Brooklyn, which police attribute to wood alcohol poison.

World Wheat Crop Smaller

Washington.—The world's wheat production this year will be less than it was last year, but considerably greater than the pre-war average, according to estimates made public by the United States Department of Agriculture. Estimates and condition reports from reporting centres indicate a yield this year of 1,019,529,000 bushels, compared with the production last year of 1,035,596,000 and the 1909-10 average of 1,080,000,000 bushels.

Reports from all sources regarding Russia, said crop conditions were favorable and would feed the nation this year, eliminating the need of imported wheat.

Extend Governor's Term

London.—The Colonial Office, says a Reuters dispatch from Sydney, Australia, has agreed to a year's extension of Sir Walter Davidson's term as Governor of New South Wales. All the parties in the state express satisfaction.

Oats Yield 100 Bushels to Acre

Leithridge.—A 20-acre field of oats on the Raymond Agricultural Show Demonstration Farm has just been harvested, the yield being 100 bushels to the acre. The land was irrigated.

It Could Be Worse.

"None of that City Life for me, hand goes A STROKE, EVERY ONE SAYS TO WALK."

"WISH I HAD A JOB TO DO."

"100 ACRES TO PLOW."

"100 ACRES TO PLOW."

"100 ACRES TO PLOW."

"100 ACRES TO PLOW."

"100 ACRES TO PLOW."

"100 ACRES TO PLOW."

RUSSIA CONFIDENT OF PEACE IN FAR EAST

OUTCOME OF CONFERENCE WITH JAPAN IS CONSIDERED HOPEFUL

Moscow.—Russian Soviet officials appear extremely confident that the conference with the Japanese at Chang Chung will bring peace to the Far East and re-extension of Russia's sphere of influence to Vladivostok.

The railway administration is understood to be preparing to restore service on the European Asia route with direct through trains from Moscow to Vladivostok while the news papers announced the formation of a limited company to operate airplanes from Peking to the eastern city.

Already Russian trains de luxe are operating again as far as China and Moscow now for the first time since 1915, foresees the Russian or Russian allied flag waving again on the Pacific.

Alberta's Banner Crop

Wheat Yielding Up to Forty Bushels to the Acre

Calgary.—Alberta is harvesting this year the finest crop since 1912, declared George Hill, Dominion Grain Inspector here. Reports from all farm country indicate the average grade will be high, there having been so far no frost, no hail, and no extremes of dry or wet weather. From the harvest season ideal conditions have prevailed.

It is reported from authoritative circles, the present crop yield of the acre will be common, yields of 20, 25 and even 40 bushels an acre will be numerous. New wheat arriving at Calgary inspection points so far has been of average No. 1 Northern, but several crops of No. 1 Hard have passed through.

Threshing is now general in all parts of the province. Most of the cutting is already completed. There has been no acute shortage of labor reported from any section.

Agree to Offer

Loan to Austria

Moratorium of Five Years Asked by London Bankers

London.—A group of London bankers have agreed to offer Austria a loan of between 200,000,000 and 250,000,000 francs according to the daily Express. The loan, which would require the approval of the Reparations Commission would be secured by Austria's gold and silver reserves, and would be granted only on condition that Austria be given a moratorium of five years on her war indemnity payments.

Fatal Mining Accident

Perth, B.C.—A fatal accident is dead and three injured. A miner, who died of a cave-in at No. One Coal Mine at Coal Creek, B.C., an unmarried Russian, was hit by a beam when the slide occurred. He was rescued within a few minutes, but died of injuries. McAndrews was buried by the cave-in, but his injuries are negligible.

Heroin Minors Indicted

Marion, Ill.—Twenty-eight men have been indicted in connection with the Heroin mine massacre. A special grand jury returned indictments charging the men with the sale of heroin, and with the sale of heroin to the mine.

August Fire Loss

Toronto.—Fire losses in Canada during the month of August are estimated by the Monetary Times at \$1,925,255. Fire losses in Canada during the week ended Sept. 6 are estimated at \$165,000 compared with \$250,750 the previous week.

Edmonton Girl Wins Typing Contest

Toronto.—Winnie Martin, of Edmonton, champion of Western Canada in typewriting events, appeared at the National Exhibition and ran away with first place in the open entries.

Big Apple Crop

Ottawa.—The commercial production of apples in Canada in 1921, was estimated by the Dominion Bureau of Statistics. In the previous year the commercial production of apples was 2,462,410 barrels, valued at \$29,345,145.

Bennett Ballroom Race

Geneva.—Lieut. Ernst de Myster, of Belgium, was officially declared the winner of the recent international ballroom race for the James Gordon Bennett cup. Captain H. E. Honeywell, one of the American entrants, was ranked second, and Lieut. de Myster, was ranked third.

Amundsen's Air Pilot Returns

Vancouver.—Lieut. E. G. Fullerton, Edmonton, formerly of the Canadian air staff here, who was a pilot of Captain Amundsen's monoplane from Alaska to Spitzbergen, has arrived back in Canada. Captain Amundsen will make the flight with one pilot only.

Railway Employees May Fight Award In Recent Wage Dispute

Ottawa.—Before the matter could be discussed and decided upon by its Executive Committee, Charles Dickie, Secretary of Division No. 4, Railway Employees' Union, Montreal, sent a telegram to Hon. James Murdoch, Minister of Labor, protesting against the Government accepting the majority award of the Board of Conciliation adjudicating the dispute between the 25,000 railway shomps and the members of the Railway Association of Canada. The telegram pointed out that the award was not a settlement of the trouble, and demanded that the case be reopened.

Toronto.—James Simpson, a member of the Board of Conciliation,

who, with two members, Alex Smith, Chairman, and Isaac Pittsford, K.C., representing the railroad, received the award, is now on his way to ship workers of seven and nine cents an hour, between the 25,000 railway employees who fight the award.

Mr. Simpson submitted a minority award, which pointed out that the board did not propose to require any wage reduction. "On the ground that the principal issue was not dealt with, the award was not a settlement of the trouble, and demanded that the case be reopened."

Toronto.—James Simpson, a member of the Board of Conciliation,

who, with two members, Alex Smith, Chairman, and Isaac Pittsford, K.C., representing the railroad, received the award, is now on his way to ship workers of seven and nine cents an hour, between the 25,000 railway employees who fight the award.

Parliament To Consider Extension Of Franchise To Natives Of India

U.S. Dollar At Discount In Canada

Montreal.—The United States dollar is being quoted at a discount of one-quarter of one per cent. here. This is the first time in seven years the United States dollar has sold for less than par here. It is said in financial circles that on a very large amount, say \$200,000, one-half of one per cent. discount will be demanded here. Various reasons are offered as the cause of the discount. It is also said that the new American gold, which is mostly just mined, according to banking officials and financiers, is general property in Canada. It is thought that the market had been engineered and the American dollar forced below par, but this is refuted by exchange brokers as being an impossibility owing to the strength of the American banks, which are in a position to meet any request that natives of India resident in Canada be granted a Dominion passport franchise on the same conditions identical with those which govern the exercise of that right by Canadian citizens generally.

France May Utilize German Materials

Plan to be Considered by Special Committee

Paris.—An agreement for the restoration of France's war-damaged estates utilizing chiefly German material for construction has been proposed by the Special Governmental Committee charged with consideration of delivery of merchandise by Germany.

The plan has been under negotiation at a series of conferences here. There have been no acute shortage of labor reported from any section.

Farmers May Shoot Ducks Out of Season

Saskatchewan Government Issues Order for Protection of Crops

Regina, Sask.—An order in council has been issued by the Provincial Government making it legal for farmers to shoot, out of season, wild ducks which are causing serious crop damage.

Many reports have been received from districts where the birds are causing much damage in the grain fields and at Dival, Sask., they are said to be plentiful that the efforts of two boys employed for the sole purpose of driving them off proved unavailing.

Wins Flight Around Alps

Swiss Lieutenant Covered the Distance in Eight Hours

Berne, Switzerland.—Lieut. Mueller, of the Swiss army, won the contest in flying around the Alps, an event in the international aviation meet at Zurich. He covered the distance in eight hours through heavy clouds which made the flying difficult over the high Alpine heights. The majority of the other contestants with drew.

Return Of MacMillan Expedition From Arctic

Says Map of North Country Will Have Been Revised

Sydney, N.S.—After peering into the frozen Arctic along the western coast of Baffin's Land to a point, he which our Dominion is occupied by a white man, Donald C. MacMillan, Arctic explorer, reached Sydney on the schooner Bowdoin, on his return from his expedition after 11 months in the north.

"I have learned that the salient point in and about the western coast of Baffin's Land are astronomical incoherence," said Captain MacMillan to the Canadian Press on his arrival here.

"The geography of that country has been wrong for years back owing to the fact that the first explorer who went there, known to the world as 'Northwest' Fox, did not give accurate information."

"I have learned that the salient point in and about the western coast of Baffin's Land are astronomical incoherence," said Captain MacMillan to the Canadian Press on his arrival here.

RICH IN VITAMINES

WORLD HAPPENINGS BRIEFLY TOLD

A severe earthquake wracked Tokyo, Northern Formosa, Sept. 2, according to advices received at Tokyo.

The first snow of the season fell Sept. 7 in the Elk Horn Mountains, south of Helena, Montana.

Gen. Sir Patrick, recent of Baghdad State, British India, died suddenly on Sept. 4 of heart disease.

Unemployed at Glasgow created serious disturbances. They attacked more than fifty shops and looted the contents.

President Harding sent a commission to Congress asking termination of the present treaty with Panama, as a permanent treaty can be drafted.

The late Prince of Monaco left the French Academy of Agriculture his model farm at Sainte-Maxime, in the Alpes Department in France.

A Moscow message states that it is the intention of the Soviet Government to sell the crown of the Tsar, which have been kept in the Kremlin.

Nearly four thousand farm hands were placed on Alberta farms during August, according to the monthly report issued by the Alberta Provincial Labor Bureau.

A syndicate which is promoting a steamship service between France and Ireland has bought a vessel in Amsterdam with accommodation for 250 passengers.

Louvain University Library is already containing 250,000 books. In 1914, he for the Germans sold the town. It contained 500,000.

A plot to kill the Rumanian Royal Family while attending the races during a festival has been uncovered and a number of former Hungarian army officers were arrested.

The Chinese Government has informed the Chamber of Commerce that the ordinance prohibiting enemy aliens in Hongkong, which expired on August 29, will not be renewed.

Rumors circulated in Berlin of the death of former Crown Prince Fredrick William of Prussia, who is staying at Doorn, Holland, by his father, were denied by the latter's personal physician.

A service of motor-omnibuses is now working between Bagdad and Aleppo. The journey, by way of Mosul, takes five days, and the desert, which has been accepted as a means to restrain their tribes from raiding the omnibuses in transit.

George Robert Stott, journalist and dramatic artist, died at his home in London on Sept. 5. He observed his 71st birthday on Sept. 2. He had conducted a column in the *Illustrated* for the pen name of Duquet since a fortnight of his prison in 1917.

The shortage of thirty million tons of coal has been caused in the north supply of the United States by the up in that industry, according to estimates made by the U. S. Bureau of Mines.

Six hundred miners employed by the Madison Coal Company at Herin, Ill., went on strike following refusal of company officials to allow some of the men who ride to work in automobiles to park their cars inside of a fence which encloses the mine.

C. F. Randall, President Dominion News Bureau and formerly managing editor of the Star, has returned to Montreal from Vancouver, where he spent the past year. He has been publisher of the Vancouver Daily World.

He has sold his interest in the *World* newspaper and will reside in Montreal.

Keep Younger Longer
So far as we can see the situation up to the age of fifty or seventy years of age today is much sadder than the man of the same years was a quarter of a century ago.

Although probably nobody will maintain that the Prince of Wales should be classed as a young man, yet it is by no means so efficiently situated as many may imagine. It is true that his apparent income runs into about 200,000 a year, but the financial demands upon him are as heavy as this sum is very considerably short.

It is his own. Indeed, it may be of interest to know that, although apparently granted a pension of £100,000 a year, he has been paid only £100,000 a year, he was considerably out of pocket as a result of his somewhat extensive trip—Christian Science Monitor.

The U.S. and Europe's Plight

The Reluctance of America to Hold Out a Helping Hand

We sit yawning on the bench and criticize the stroke of drowning man. If our observers are accurate they must at each recurring conference expect that continental Europe is drifting from bad to worse, with no end in sight.

At the end of the resource: still war with starvation and in follow, audibly muttering around the corner. And we no on observing. As far looking out a helping hand, before it is too late, to our friends our neighbors, our customers in trade, and our fellow-citizens of the carnage of centuries of culture, that would be forming "entangling alliances," and is not to be thought of.

From the New York World.

Do Large Breaths Hurt? Is Your Chest Weezy?

Proper treatment is a vigorous rubbing of the chest, neck and side with cold cream. This treatment is of great benefit in chest diseases, coughs, colds, and soreness. It is a safe and effective remedy for all such ailments. It is a safe and effective remedy for all such ailments.

Montreal Board Of Trade Perpetuates Maisonneuve

There is a striking monument in Montreal to Maisonneuve, founder of Canada's Metropolis. As in his lifetime, his thoughts were of the West, so does the monument to him stand today.

The monument has caught the spirit of the adventurous pioneer in the pulse of the body and the head. Vision, courage, determination are plain to the observant eye and under-standable.

Maisonneuve and the host of gallant men and noble women who laid the foundation of the Canada of today, long ago embarked upon the greatest and last quest. But their faith in the new land is as a living flame in the hearts of their successors. They see their country favored by geography and nature, a link between East and West, and extending almost 4,000 miles from ocean to ocean.

They know that it is endowed with a richness of natural resources beyond the power of man to calculate. Above all they rejoice in its attainment to a place and a voice in the councils of the nations.

Retrospect is often pleasant. The true Canadian has little time for the past. His heart and mind are on the present and the future. He knows that if his country will ever be a great nation it must be by first worthier efforts on the part of its people individually and collectively.

No single province within the Dominion's far-flung boundaries can afford to disregard its own. Each must be in sympathy with all the rest. The share in the problems as well as in the joys and prosperity of the West.

The West must have faith in the East, bound by an inviolable and unbreakable chain of mutual affection and goodwill that can, with, not and keep Canada's greatness.

The development of the national spirit has been fostered in the hour of peril, difficulty and struggle. It is beginning to bloom in beauty and strength. Its progress has been retarded by the Dominion's failure to organize important organizations in sending delegations to many sections of the country.

It is the duty of the Dominion to add to their first-hand knowledge of their homeland. Such an organization is the Montreal Board of Trade which will conduct the Dominion's first-hand knowledge of their homeland.
